Thanks for sending the copy of the complaint.

There is one comment that I need to make. In the complaint there is:

135. As a result of the drinking water contamination, EPA listed Lane Street on its National Priority List and declared the site a Superfund site.

136. The Superfund designation allowed federal funds to be used to provide the people on Lane Street with an alternate water source.

The site was proposed for the NPL on April 9, 2009. It was made final on the NPL on September 23, 2009.

Construction activities for the connections to municipal water commenced the week of November 3, 2008 and all 26 homes were connected to city water on November 26, 2008. Landscaping work, road cleaning and well abandonment work was finished by the end of the first week in December 2008. Thus it was not the listing of the site on the NPL that allowed for the expenditure of money for the connections to the municipal water.

"Kwilosz, Andrea" Dear Mr. Schorle: Pursuant to your request plea...
